 Approval of the 2023 Minutes of ASM

“RESOLVED, that the Minutes of the Annual Meeting of the Stockholders of JG Summit Holdings, Inc. held on May 15, 2023 be hereby approved.”

III. PRESENTATION OF ANNUAL REPORT AND APPROVAL OF THE FINANCIAL STATEMENTS FOR FISCAL YEAR ENDED DECEMBER 31, 2023

The President and Chief Executive Officer, Mr. Lance Y. Gokongwei, presented a report on the results of operations and financial performance of the Corporation as reflected in the audited financial statements for the fiscal year ended December 31, 2023.

Mr. Lance Gokongwei said that there was strong progress across the Corporation's businesses in 2023. He said that travel demand boomed as there was a full year of eased mobility, which propelled the airline business back into profitability after the pandemic. He said that the real estate business also saw robust growth as foot traffic in malls and bookings in hotels improved. In addition, he reported that margin expansion in the real estate and food businesses offset the volatility in fuel prices and the elevated inflation that affected consumer demand. He reported that these resulted in the full-year core net income tripling to Php19.8 billion in 2023 on the back of a 14% growth in total revenues. He said that the remarkable performance of the Corporation's strategic business units outweighed the absence of the 3.2-billion-peso gain recognized on the sale of Meralco shares in 2022. He also said that, ore favorable forex and mark-to-market adjustments further nudged the net income to Php20 billion, or nearly 30 times the same period last year. Comparing to pre-pandemic levels, he reported that revenues are already about 21% beyond 2019, while core profits and net income have moved closer to the 2019 record highs.

He then moved on to the key results of the different business units of the Corporation beginning with URC. He reported that for URC, operating income rose more than twice the pace of revenue growth, as margins expanded from key pricing moves, favorable product mix, and significant operating savings. He said that higher revenues came from the robust growth seen in URC's agro-industrial group, as well as the expansion in URC's international branded business and in most categories in the Philippines. As such, URC's core profits rose 4% to Php11.9 billion, but one-off gains recognized in 2022 led to a 13% decline in net income. Beyond financials, he said that URC continued to build its pet food business, with the well-loved Top Breed brand and newly launched Top Cat, as a growth anchor in the Philippines. He also reported that URC has made significant progress with the integration of Munchy's with URC Malaysia.

For RLC, Mr. Lance Gokongwei reported that net income grew 24% to Php12.1 billion in 2023 mainly fueled by increased consumer spending and mobility that benefited RLC malls and hotels, coupled with sustained project developments in its residential business. He said that excluding, Chengdu contributions recognized in 2022, RLC's full-year revenues and net income were up 28% and 45% year on year, respectively. Additionally, he reported that occupancy rates for malls and offices remained above industry levels. He also said that RLC has also continued expanding its footprint, opening Nu Star last December 2023 while Opus and Pagadian Malls are slated in 2024 along with two new office buildings.

For Cebu Air, he reported that efforts to fully recover systemwide seat capacity and cost effectively serve the robust travel demand enabled CEB to post its first full year profitability since the pandemic. He reported that CEB flew over 20.8 million passengers in 2023 increasing total revenues by 60% year on year, and surpassing 2019 topline by 7%. Together with more efficient operations and lower fuel costs, he said that this drove the Php21.9 billion turnaround in CEB's profitability, closing out 2023 with a net income of Php7.9 billion. As of end 2023, he reported that CEB had 85 aircraft, with over 2,700 weekly flights after it resumed several routes from Manila, Cebu, and Clark. Thus, CEB has solidified its position as the leading domestic carrier with a 53% market share.

For JG Summit Olefins, Mr. Lance Gokongwei said that there was facility shutdown in February 2023 due to unfavorable polymer spreads from weak global demand. Nonetheless, he said that JGSOC managed to expand total sales volume by 19% year on year and deliver a 6% full-year revenue growth after resuming plant operations in June. He said that the shutdown, together with healthy margin contributions from JGSOC's new downstream products, helped JGSOC to significantly curb EBITDA losses by Php4.3 billion year on year, leading net losses to narrow to Php12.9 billion.

He said that before the end of 2023, JGSOC embarked on a business-wide transformation program that aims to turn around the business despite operating in an extremely competitive and unforgiving environment. He said that JGSOC successfully completed the robust diagnostics last December and have set realizable performance targets within 2024. He said that JGSOC, together with its external consultant Bain & Co., has identified and is now progressing various initiatives, anchored on driving both accelerated commercial and disciplined operational excellence. He said that JGSOC is also

focusing on capability building as well as cultural and leadership transformation, which would help ensure the achievement and sustainability of JGSOC's overall transformation.

Moving on to the Corporation's core investments, Mr. Lance Gokongwei reported that the significant contributions from Meralco's power generation business along with the growth of its distribution business, resulted in the 26% increase in the Corporation's equity income and that equity income from SingLand declined as most of its residential projects were substantially sold by end 2022. He said that this was cushioned by the recovery in SingLand's hotel operations. He also said that the Corporation received lower dividends from PLDT as the special dividends from PLDT's tower sales were halved but the regular dividends continued to increase.

Moving on to the Corporation's ecosystem plays, he reported that GoTyme successfully exceeded its target of 2 million customers by the end of 2023 and attracted more than Php10 billion in deposits. He said that GoTyme customers has now reached more than 3 million and around Php15 billion in deposits, as of end-April 2024. He said that GoTyme also launched its first lending product that caters to SMEs in partnership with Paymongo. He reported that JGDEV's Fund II saw its first deployment in 2023, while JGDEV also participated in follow-on rounds that increased valuations of its current investees. He also reported that DAVI hit nearly 10 million users or 35% higher versus end-2022, with about 2/3 of the new GoRewards members coming from GoTyme. He reported that LIPAD was able to service nearly 2 million passengers and increased the number of airlines flying to and from Clark to a total of 12. Finally, he reported that DSSI has onboarded 4 new customers as it expands its operations beyond the Gokongwei Group.

Mr. Lance Gokongwei reported that JG Summit's financial position remains solid with consolidated D/E and net gearing ratios of 0.68 and 0.57 at the close of 2023. At the parent level, he said that cash and long-term debt fell versus end-2022 after the Corporation repaid its 750-million-dollar bond in January 2023. Meanwhile, he said that the parent's net debt only rose by Php2 billion year on year, after infusing Php11 billion into JGSOC in 4Q23 to help the latter meet its debt covenants, and after paying about Php6 billion in interest and dividends to JG Summit's capital providers. He said that the same were offset by the Php15.7 billion dividends that the parent received, which included higher dividends from URC and MER.

Mr. Lance Gokongwei reported that Groupwide CAPEX grew 39% year on year in 2023, mainly driven by the capacity expansion initiatives of URC and CEB. He reported that for 2024, the group continues to invest in expansion projects, specifically in sites such as the Malvar property of URC, increasing the leasable area for RLC, additional 18 aircraft deliveries for CEB, and CAPEX to sustain JGSOC operations and settle its project contract payments. He said that while there was an initial budget for Php87 billion in CAPEX for 2024, the Corporation is anticipating additional engine deliveries for CEB, which may put the Corporation's total 2024 spending above 2023.

Since the publication of the inaugural JG Summit Sustainability Report in 2020, Mr. Lance Gokongwei said that the Corporation have worked on integrating sustainability risks into its governance and ERM processes and promoted climate education and disclosures across the group. In 2023, He said that groupwide ESG targets were released in the first quarter, and later initiated the Corporation's Climate Resilience Project, which aims to advance understanding of climate risks and opportunities across the group's strategic business units through scenario analysis. He said that with all the efforts to communicate the Corporation's sustainability progress, there were improvements in the Corporation's 2023 scores from Sustainalytics and CDP, as well as maintaining its BBB rating with MSCI.

After discussing our full year performance for 2023, Mr. Lance Gokongwei gave a snapshot of the Corporation's first quarter 2024 results. In 1Q, he reported the Corporation recorded a consolidated core net income of Php12.6 billion, or more than 3 times that of 1Q23. He said that this was delivered on the back of an 18% rise in total revenues with the continued topline expansion across all our businesses, led by JGSOC's higher plant utilization and CEB's progressing international operations. He reported that CEB's increased capacity and improved efficiency, RLC's record-breaking EBITDA, and URC's growing volumes and sustained margin uplift set the baseline for our core profits. He also said that this was boosted by the Php7.9-billion gain from the RBank-BPI merger which became effective at the start of 2024. He said however that even without the merger gain, the solid performance of the Corporation's listed units translated to a 16% growth in JG

Summit's core net income. He reported that incorporating non-core items, 1Q24 net income ended at Php11.0 billion, which is already more than half of JG Summit's 2023 full-year results.

In closing, Mr. Lance Gokongwei said that there was continued improvement in JG Summit's full-year results as the airline reclaimed profitability, the food and property businesses expanded their margins, and the petrochemical unit trimmed its losses. He said that the Corporation's listed subsidiaries also posted strong results in the first quarter of 2024, which were further propelled by the gain from the BPI-Robinsons Bank merger.

He said that while the Corporation remains cautious given short-term headwinds from elevated fuel prices, interest, and forex rates, the Corporation continues to work hard to accelerate recurring core profits in the succeeding quarters. With these advancements across the group, he said the Corporation hopes to remain ahead of the curve as it continues its commitment to provide its customers with better choices and create shared success with its stakeholders.

After the report of Mr. Lance Y. Gokongwei, the Chairman called on the Corporate Secretary to present the results of voting for the approval of the audited financial statements for the fiscal year ended December 31, 2023 ("2023 Audited Financial Statements").

After motion made duly seconded, the 2023 Audited Financial Statements was approved. VIII. CONSIDERATION OF SUCH OTHER MATTERS AS MAY PROPERLY COME DURING THE MEETING

The Chairman informed those present that the President and Chief Executive Officer of the Corporation, Mr. Lance Y. Gokongwei, shall respond to questions which were submitted by stockholders through email.

Mr. Lance Gokongwei responded to the following questions:

- a. What are you looking forward to given the merger between Robinsons Bank and BPI that has taken into effect at the start of 2024?

Mr. Lance Gokongwei said that there was excitement for the merger to unlock synergies between the Ayala and Gokongwei groups such as being able to provide a wider variety of financing solutions to suppliers such as supply chain financing, which the Corporation was previously able to offer only on a limited scale as Robinsons Bank. On the other hand, he said that RBank’s innovative products, such as the Philippines’ first two-gives credit card RBank DOS and RBank’s instant salary loan InstaBale, would be able to reach more customers. He said that from JG Summit’s perspective, it is looking forward to realizing cash flow in the banking investment in the form of dividends, which the Corporation can allocate towards efforts to further grow and support its other businesses.

- b. Could you give us more color on the group’s plans for expansion in the coming months??

Mr. Lance Gokongwei answered that the listed SBUs are all continuously expanding their capacity and footprint. He said that URC is constructing its Mega Plant in Malvar, Batangas and the first line is expected to be operational by the end of 2024. He said that RLC, after opening Nustar Mall and The Westin Manila in 2023, intends to complete Opus Mall in Bridgetowne and Robinsons Pagadian, Nustar Hotel in Cebu, as well as various industrial facilities. He said that CEB aims to grow full-year capacity by 12-15% with 18 additional aircraft this year, 5 of which have been delivered in 1Q.

On JGSHI’s ecosystem plays, he said that DSSI will be onboarding more customers outside of the Gokongwei Group, after adding 2 new major customers in 1Q and that GoTyme, continues to expand its product offerings such as SME lending and earned wage access, especially as GoTyme’s shareholders recently acquired SAVii, the largest fintech salary lender in the Philippines (which has a loan book of over Php3 billion and serves more than 500,000 employees across 150 of the biggest Philippine corporations).

The Chairman announced that other questions sent by stockholders will be responded to through email.

IX. OTHER MATTERS

In response to the question of the Chairman on whether there were any other matters to be taken up, the Corporate Secretary replied that there were none.

X. ADJOURNMENT

Thereafter, before calling for adjournment, the Chairman announced to the stockholders the cash dividend declared and approved by the Board of Directors of the Corporation last May 8, 2024, in the amount of Forty-Two Centavos (P0.42) per common share to stockholders of record as of May 23, 2024, which shall be paid on June 5, 2024.

The Chairman also said a few words on the Corporation's 2024 Outlook. He said that as the Corporation progresses on its journey as a conglomerate, it continuously refines its strategy to meet customers' evolving needs and embed sustainability in its operations across the group. He said that the Corporation is looking forward to reshaping the future with more innovative products and services in the years to come, putting to work its entrepreneurial mindset while practicing integrity and being good stewards of the resources entrusted to it.

Those present were advised that the link where the replay of the meeting may be viewed will be made available at the website of the Corporation.

There being no further business to transact, and upon motion made and duly seconded, the meeting was thereupon adjourned.

MARIA CELIA H. FERNANDEZ-ESTAVILLO
Corporate Secretary
